August 2006

Dear Colleague,

On behalf of the Tennessee Department of Correction and the Sex Offender Treatment Board, I extend to you a warm invitation to the 10<sup>th</sup> Annual Sex Offender Treatment Conference. Our conference theme is Sex Offender Containment: Collaboration, Supervision, & Treatment. The conference will be held from August 21 – 24, 2006 at the Embassy Suites in the Cool Springs area of Franklin, Tennessee. This hotel is a beautiful setting and numerous amenities are available for guests of the hotel.

This conference is well regarded for bringing together sex offender treatment professionals to provide education, collaboration, and social interaction. The conference serves a diverse group of professionals. This year we strive to bridge the gap between evaluation and supervision for both the adult and juvenile offender populations. The conference will offer a range of seminars and general sessions, knowledge of experts in allied fields, practice information, and numerous opportunities to interact with colleagues and friends.

You will notice the increase in the conference fees. Initially, we were able to offer training for free and later at a greatly reduced rate for a conference of this kind. These rates are no longer possible due to budgetary constraints. However, we will continue to provide quality training at a reasonable cost for professionals.

We are striving to present a conference that is not only informative but also well organized. At each seminar, you will have the opportunity to evaluate the speaker to provide us with valuable feedback.

We hope this conference provides you with opportunities to increase your knowledge, skills and a good time.

With best wishes,

Jeanine C. Miller, PhD  
Director of Mental Health, TDOC

# INFORMATION

## **Tennessee Sex Offender Treatment Board (TSOTB)**

The TSOTB was created by the legislature (T.C.A. 39-13-704) and charged with the responsibility of creating a statewide treatment and monitoring program for sexual offenders. Comprised of 13 professionals who represent various agencies, the Board meets monthly with the intention of improving the existing sex offender management system. The statewide network of adult treatment providers has grown tremendously over the years. In the future, the Board will work on implementing several initiatives, i.e., expanding the provider network in rural areas, enhancing the network of providers specializing in treatment for juveniles, provider accountability and quality assurance, and strengthening institutional programs for sexual offenders.

## **Board Mission Statement**

The mission of the Tennessee Sex Offender Treatment Board is to reduce the likelihood of sexually based offenses through establishment of a statewide network of sex offender treatment providers, development of treatment standards, financial resources for treatment of indigent offenders, and continuing education opportunities through an annual conference.

## **Conference Goals and Objectives**

The goal of the 10<sup>th</sup> Annual Treatment & Supervision Conference is to advance the knowledge and skills of clinicians and law enforcement working with sex offenders by providing relevant training on current research, technology, therapeutic modalities, and cultural implications. An equally important goal is to inform the community of the impact of sexual offenses on victims by enhancing awareness of the effects of victimization and the need for empathy when interacting with these persons.

## **Conference Volunteers**

Many correctional employees and several community practitioners have volunteered hours of their time to assist with this conference. Their willingness to serve in this capacity with pre-conference tasks and on-site jobs has expanded the Board's ability to meet the expectations of conference participants. Conference volunteers will be wearing ribbons. They are prepared to answer any questions you may have or direct you to someone who can.
